

**Pool too cold to swim?**  
**TURN UP THE EVOHEAT**

**JBOX**

SAVING YOU MONEY ON WATER PUMPS & RUNNING COSTS

# JBOX

SAVING YOU TIME, ENERGY & MONEY

## EVOHEAT JBOX

A HANDY ADD-ON THAT ALLOWS THE HEAT PUMP TO TURN THE MAIN WATER PUMP ON OUTSIDE OF FILTRATION TIMES - SAVING TIME, ENERGY AND MONEY!

- **EASY TO USE**
- **SAVE YOU MONEY ON RUNNING COSTS**
- **SET AND FORGET**
- **NO WATER BALANCE ISSUES**
- **ONLY REQUIRE ONE WATER PUMP**

## FRIENDLY TO THE ENVIRONMENT AND YOUR POCKET!

Why buy a JBox? It's simple - to save on energy costs and reduce purchase costs. It's incredibly expensive to buy both a filter pump and heater pump, so why not combine the costs? Doing so will save you money & reduce your running costs!! Simple to run and affordable for its entire lifetime - the EvoHeat JBox makes complete sense!

The JBox allows either the heater OR the chlorinator to supply power to turn the water pump on so each device can run independently of the other. Conversely, the JBox allows both the chlorinator and heater to be running at the same time.

- One pump for two jobs: Save on the purchase and running costs.
- Enormous energy savings: Save up to \$1,000 per year on electricity.  
\*Energy savings will depend on comparison with your current heating system, and operational settings i.e. how you use the heating system.
- Set it and forget it: Year round chlorination and heating for your pool, with no ongoing monitoring required.
- Chlorination issues are gone: Standard chlorination settings mean that there's no pH or chemical imbalances in the pool.
- Simple installation: Get an electrician to hard-wire the JBox to your heater. The rest is plug and play.

Note: Make sure you allow power requirements for the water pump that is on the same circuit as the heat pump.

## YOUR HEATER INSTALL OPTIONS

## ADVANTAGES

## DISADVANTAGES

### SLAVE MODE

Heater is connected to the filtration system but relies on water flow from the chlorinator for start and stop times.

- ✓ Only 1 pump required
- ✓ Better distribution of heat

✗ As the heater may need to run up to 18+hrs a day in winter the chlorinator will need to be adjusted to allow the pump to run longer. This can cause water chemical balance issues resulting from over or under chlorinating the pool. You will need to constantly monitor and adjust the chlorinator output to keep it at the required level.

#### SLAVE MODE

### SEPARATE SYSTEMS

Heater runs on a dedicated circuit to the filtration system.

- ✓ Easy to use – set and forget the heater operation and leave your chlorinator to work as normal
- ✓ No water balance issues due to adjusting the chlorinator running time

✗ Purchase of 1 extra water pump at up to \$800+

✗ Electrical use from this pump could add up to over \$1,000 per year

✗ Generally a less uniform heat spread throughout the pool.

#### SEPERATE SYSTEMS

### EVOHEAT JBOX

Heater is connected into the filtration plumbing. After installing the EvoHeat JBox and having your electrician hard wire the JBox to the heater, simply plug the water pump into the JBox and plug the JBox into the Chlorinator.

- ✓ Only 1 pump needed – savings up to \$800+ on purchase and ongoing running costs
- ✓ Save up to \$1,000 per year on electricity

✓ **NONE!!**

#### EVO JBOX

- ✓ Easy to use – set and forget the heater operation and leave your chlorinator to work as normal
- ✓ No water or chemical balance issues due to adjusting the chlorinator running time
- ✓ Better distribution of heat

**ORDER AN EVOHEAT JBOX WITH YOUR EVOHEAT HEATER AND RELAX IN YOUR POOL WHILE MAXIMISING THE SAVINGS!!**

## THE SPECIALISTS IN POOL AND SPA HEATING

EvoHeat are 100% Australian owned and operated company and are the industry specialists in pool and spa heat pumps. For over a decade we've been building a solid reputation for pool and spa heating products that are renowned for reducing your energy bills and delivering reliability.

Our exclusive pool heaters are durable and utilise cutting edge components sourced from leading brand manufacturers around the world. Unlike other suppliers, EvoHeat only specialise in heat pump technology and are constantly developing and improving our heating applications to ensure we offer you the best in the market.

### JBOX WARRANTY

For further peace of mind the EvoHeat JBox comes with a 1 year warranty.
